to name but a few. The most challenging part of this trip will be the hike across Khumbu Glacier to reach our final goal to Everest Base Camp, and the hike up to Kala Patthar – the highest point – for its breath-taking view.

The trip begins at Kathmandu, where you can visit some of the stunning Unesco Heritage sites or head on to the valley for its scenic views. From Kathmandu, we will fly on to Lukla and will go through the bustling market village of Namche Bazar, the Sherpa capital of the Khumbu. The rich Sherpa culture and their friendly nature are an added extra bonus on this awe-inspiring trip. We will then go through Tengboche, the home of Nepal's most famous monastery, situated beneath the impressive backdrop of Everest and Ama Dablam (6,856m), to name but a few. The most challenging part of this trip will be the hike across Khumbu Glacier to reach our final goal to Everest Base Camp, and the hike up to Kala Patthar – the highest point – for its breath-taking view.
